

We regret that the following documents are still being edited at this time and are therefore not yet available for download from our web site. Each will be posted as it becomes available. Please come back and visit our download page for updates.

**3) Two hundred years of deception**

**Protection = illusion:**

Intellectual property and globalisation

**4) Under arbitrary rules, justice is for fools:**

Mythical criteria of patentability and elusive “prior art searches”

**5) A word of caution to the media:**

The perils of exposing new inventions and the ever present danger of technological Vigil

**6) The inventor and the investor:**

How to create a good business relationship between the investor-financier and the author of an invention or otherwise commercially exploitable concept

**7) How can a financier benefit from an *Intellectual Passport* <sup>®</sup> :**

The advantages of ownership of a work (i.e. true property) over that of the commercial monopoly offered by titles of exploitation...  
What to make of jurisprudence?

**8) Putting the *Intellectual Passport* <sup>®</sup> to the judicial test:**

Arguments of attack and defence for the originator of an innovative concept that has been copied.

**9) USD-System Glossary:**

Complete definition and explanation of the terms intrinsic to the field of Intellectual Property

N.B.: More extensive glossary than that provided on the web site
